

Adding the optional Volunteer Pledge Template Question to your checkout flow:

Looking for volunteers for your organization? Consider adding the Volunteer Pledge question to your checkout form.

Organizations have the option to include a templated Volunteer Pledge question to their donation form. This question asks donors if they would like to volunteer for the organization they are making a donation to. If they select the box, they will be prompted to select how many hours they would like to pledge (5, 10, 15, 40, none, or other.)

Please note: Adding the Volunteer Pledge question will count against the 1 additional question limit for any organizations not on an Advanced Mightycause plan. Advanced organizations may have up to 10 additional questions in their checkout form.

Example question in checkout:

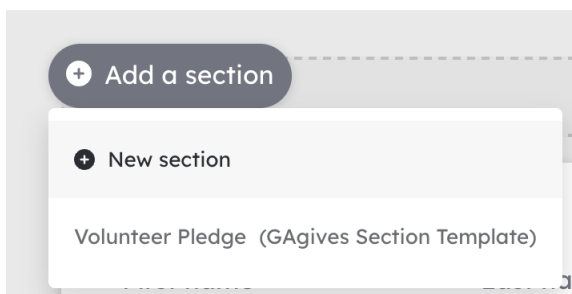

I am interested in volunteering for 350 Sacramento
This organization may email you about volunteering opportunities.

Approximately how many hours of service would you like to pledge?

5 hours 10 hours 15 hours 40 hours None Other

How to add the Volunteer Pledge question:

To add the question, go to your Checkout > Donation Form. Click "+ Add a section" and select from the dropdown, Volunteer Pledge.

Reporting:

Full information regarding volunteer interest and hours pledged will be available within the downloadable donation report. Organizations may then reach out to those interested and communicate next steps for volunteering.
